Each Orlik *shape* is identified by a number which does not change, irrespective of the quality of the pipe, and each *quality* has a series letter; the series letter and shape number are stamped on the back of each pipe, to identify it permanently.

Thus an Orlik Supreme Medium Bulldog with saddle mouthpiece, is T.27, the same shape pipe in Captain Black quality is B.27.

To order any particular pipe it is only necessary to specify the *series letter* and *shape number* required. Where a series has a number instead of a letter, this number should be quoted.

The Briar Root used in the manufacture of Orlik London Made Pipes is specially selected and well seasoned and the bowls are guaranteed for six months against cracking and burning with normal use.

This Guarantee does not apply generally to pipes which split or break at the junction of the bowl and stem, usually the result of an accident.
