HISTORY OF THE FISCHER FAMILY, IN THE ART OF PIPE MAKING

Fischer pipes first appeared in 1742 in Saxony. The painstaking craftsmanship so outstanding in Fischer made pipes, soon drew the attention of the prince of Saxony and thereupon appointed them the pipemakers for Royalty.

In 1867—August Fischer, the fourth generation, came to America with his family, where his craftsmanship soon won him a place, as a master in the arts of pipe making. It was only natural that his son Gustave follow the family profession, so that in 1892 both father and son located their new establishment in Buffalo. Today as then, the name Fischer is your guarantee for quality and craftsmanship, under the personal supervision of Arthur C. Fischer, the sixth generation, located in Orchard Park.

Our Trademark, The Cavalier carved by August Fischer in 1901 is in the family collection of rare and beautiful pipes.
