BOWL FINISHING

FINISHING & REPAIRING DEPT.

We have much pleasure in presenting our New Catalogue illustrating some of the principal shapes and specialities in our celebrated ^{EB}_{WB} Briar Pipes.

Our pipes being so well and universally known (without the artificial aid of advertisements), we will not here dwell on their perfection, but would ask you to kindly peruse this book, which will no doubt introduce to you some new patterns.

If you are not already a smoker of our pipes, we hope that it will lead to your giving them a trial and thus testing their quality and workmanship, we ourselves being confident of your ultimate judgment and satisfaction.

Every department of our factory being under our own practical and personal supervision, ensures every pipe turned out by us coming under our direct notice. This fact, coupled with the excellence of the materials used in their manufacture, has given our pipes a reputation second to none in the smoking world, a reputation we firmly intend to maintain and strengthen.

B. BARLING & SONS.

London

BARLING'S CELEBRATED PIPES.

A few Standard shapes selected from our extensive ranges, which comprise every reasonable pattern extant.
